

How to search NABL Accredited Laboratories*

*adopted from NABL website

NABL, being an accreditation body grants accreditation to Testing and Calibration laboratories based on ISO/IEC 17025, ISO 15189, Proficiency Testing Provider (PTP) – ISO 17043 and Reference Material Producers (RMP)- ISO/IEC 17034.

NABL itself is not doing Testing or calibration. If you would like to test your product, then you are required to contact NABL accredited laboratory.

Directory of NABL accredited laboratories are available on NABL website home page as well as website under Publications -> NABL Documents (Page 3).

To search NABL accredited laboratory, please visit www.nabl-india.org. When you bring the cursor on laboratory search, a drop down will come and then click on accredited laboratory.

To know the all NABL accredited testing laboratory, select field testing and click on search. The complete list will be available. Further you may also use different filter, like state and city, to locate the nearest available NABL accredited lab.
